

## 360° offline USB stick | Installation and program start

1. Insert the stick into the USB port.
2. The start menu of CLICK & LEARN 360° offline appears. If the start does not happen automatically, the file “Start-CL.exe“ must be started with a double click.
3. To install or start the learning program, click on the “CLICK & LEARN 360° offline“ menu item in the start menu.

**Windows Vista or later:** From Windows Vista or higher, you may need to start the application with administrator rights. To do this, right-click on the program icon and select “Run as administrator“.

**Program start:** If the USB stick does not start automatically, the file “Start-CL.exe“ must be started with a double click!

**IMPORTANT:** do not format the stick, do not delete files, always eject stick via “Safely Remove Hardware“ (click on icon in taskbar)!

## 360° offline DVD | Installation

1. Open the file explorer.
2. Switch to the DVD drive.
3. Start the installation by double-clicking on “Setup.exe“ and follow the instructions on the screen.

**Windows Vista or later:** You must be logged in as an administrator to be able to install the program. For later use, a normal user account is sufficient.

## Additional notes:
